EXPERIENCE

Associate Software Engineer Developer (Laravel / Moodle) - SportWizz Pvt. Ltd. | May 2024 - Present

- Develop and maintain complex web applications using Laravel and Moodle, focusing on OGQ Gamification Learning processes.
- Implement responsive and user-friendly designs using HTML5, CSS3, and Bootstrap5
- Collaborate with the design team to create visually appealing layouts that enhance the online learning experience.
- Optimize frontend performance, resulting in a 40% improvement in mobile user engagement
- Integrate RESTful APIs to connect frontend React components with Laravel backend services
- Utilize Git for version control and participate in code reviews to maintain high code quality
- Contribute to the development of custom Moodle plugins to extend platform functionality
- Assist in database design and optimization using SQL to improve application performance
- Participate in Agile development processes, including daily stand-ups and sprint planning
- Troubleshoot and debug issues across the full stack to ensure smooth user experiences

Key Achievements:

- Successfully implemented gamification elements in the learning platform, increasing user retention by 25%
- Developed a responsive dashboard using React and Bootstrap5, improving user interaction with learning materials
- Contributed to the migration of legacy PHP code to Laravel, enhancing maintainability and scalability
- Assisted in the implementation of secure authentication and authorization systems for the learning platform

Full-Stack Developer (Laravel / WordPress) - Freelancer. | Aug 2023 - Apr 2024

- Implement responsive designs with HTML5, CSS3, and TailwindCSS for various client projects
- Assist in optimizing database queries and RESTful API endpoints using SQL and PHP.

- Collaborate with senior developers to improve code quality and learn best practices
- Participate in the implementation of e-commerce features, including payment gateway integrations
- Utilize Git and GitHub for version control and collaborative development
- Engage in Agile development processes, participating in daily stand-ups and sprint planning

Key Achievements:

- Developed a component library using React and TailwindCSS, improving development efficiency by 20%.
- Contributed to the successful launch of an e-commerce platform, handling front-end implementations
- Assisted in the creation of a real estate listing feature, implementing search and filter functionalities
- Gained hands-on experience with DevOps tools like Netlify and Vercel for deployment and hosting

Frontend Developer Intern - Rajyug IT Solution Pvt. Ltd. | Dec 2022 - Jul 2023

- I implemented responsive designs with HTML5, CSS3, PHP, MySQL, and TailwindCSS, improving mobile user engagement by 40%.

Frontend Developer Intern - Hixxa Pvt. Ltd. | Sep 2023 - Nov 2023

- I learned and designed using HTML, CSS, JavaScript, and PHP for frontend development to create websites, gaining knowledge in website design and development processes.

CERTIFICATIONS

- **Full Stack Web Development Course Certification:** In progress | testbook.com
- **Learn Tailwind CSS 3 - A utility-first CSS framework:** Jan 2023 | codedamn.com
- **JavaScript Algorithms and Data Structures:** Jan 2023 | freecodecamp.com
- **HTML & CSS :** May 2023 | Open Weaver
- **Learn the basics of the web - Internet fundamentals Certificate:** Dec 2023 | codedamn.com

ACADEMICS & EDUCATION

Course	Institution	Year	Score
BTech. In AI	G H Rasoni Institute of Technology	2020 - 2023	6.01 CGPA
Diploma in CS	G H Rasoni Institute of Technology	2016 - 2020	69.76%
